Total items listed in this report: 2615

- Style Notes:
1. Undecipherable or missing characters and/or digits are indicated with a tilde or swung dash (~) character.
 2. Editor's comments and/or additions to the text are shown in "[]" brackets.
 3. Coin pianos, photoplayers, organettes, mortuary organs, and theater organ pianos contained within this database report were manufactured in Wurlitzer's North Tonawanda factory. All other pianos were made in Wurlitzer's DeKalb facility, formerly the Melville Clark Piano Company factory.
 4. The sequential entry of 105,000 series ledger items stopped at item 107,599. However, North Tonawanda built items had already been culled out of the ledger pages some years prior to the sequential listing effort, whereupon any North Tonawanda built items were included in the sequential list, except for 17 items with serial numbers higher than 107,599. These 17 items have been appended as a group to the end of the sequential listing, and therefore might appear to be orphaned entries in this report.
 5. The original ledger material has been slightly edited and obvious spelling errors corrected, but in all instances the original intent has been preserved. Otherwise the reader would be confronted with an endless number or annoying (sic) notations.

105050	Wurlitzer Style O Special Destination: Minneapolis, Minn Notation: Piano shipped was organ [sloppy handwriting for "was;" possibly should be "shipped" Comments: Wurlitzer piano #105050, along with the theater organ to which it was attached, was removed from the Minnesota Theatre in Minneapolis, Wisconsin. The piano has a gold plate and was originally a vacuum-operated theatre organ piano with a magnet rail for controlling the 4-in-1 valves from the organ relay. The reference to "Style O Special" is not understood. Wurlitzer did make a Style O Photoplayer that could be played manually or played by Wurlitzer 65-note music rolls.	-----	2/24/1928
