Total items listed in this report: 6332

- Style Notes:
1. This report includes only Wurlitzer band organ related information from (1) the deKleist Journals, (2) the Wurlitzer Serial Order Band Organ Ledger, (3) the Wurlitzer "Repairs" Band Organ Ledger, and (4) the Wurlitzer Factory Shipping Dock Ledgers.
 2. Document source can be determined by the prefix to the page number: "Journal" = deKleist Journals; "Serial" = Wurlitzer Band Organ Serial Ledgers; "Repair" = Wurlitzer Band Organ Repairs Ledger; and "Factory" = Wurlitzer Factory Shipping Dock Ledgers.
 3. Band organ serial numbers in the Factory Ledger, from 1911 through 1941, are often underlined in blue, which seems to indicate a repaired instrument. In database reports blue underlining is shown in black, but with the underlining color represented at the right of the serial number. In 1942 and 1943 underlining was no longer used, but the database editor added a "u" suffix (instead of "b") signifying organs being repaired during these years.
 4. In numerous notations, "WHW" are the initials of Walter H. Wendell, Vice-President and General Manager of the Rudolph Wurlitzer Manufacturing Company, North Tonawanda, N.Y.
 5. Throughout the ledgers the term "Gebruder" was consistently used to represent Gebruder Bruder organs. This deficiency has been corrected to either "Gebr. Bruder" or "Gebrüder [Bruder]" depending upon field space limitations.
 6. The original ledger material has been slightly edited and obvious spelling and location errors corrected, but in all instances the original intent has been preserved. Otherwise the reader would be confronted with an endless number or annoying (sic) notations.

Customer: Lilco Distributing Co.; New York City Roll Mechanism: Long roll frame. Drive: All gear tracker frame. Chest: Metal 4-in-1 valve u. Drum Action: No drums. Comments: The current owner reported on July 18, 2017, that he bought the style 103 organ #4330 at the Musical Box Society International (MBSI) convention in Dearborn, MI in 1980, an event that included a band organ rally. Very little has been done to the organ, aside from routine maintenance, recovering the vacuum reservoir, and replacing the leather disk in the friction drive; all else is factory original. Inside the vacuum reservoir was an old newspaper page used to seal the wood and make it air tight. In a blank portion of the newspaper, hand-written in pencil, was the following notation: "Sept 7 - 1937 by W.H.G." It was rumored at the band organ rally that the organ had been purchased from the N.Y. distributor by an unknown collector while still in its original shipping crate. The organ is pictured at bottom right on page 94 of Ron Bopp's book: "The American Carousel Organ."

3737	148 Band Organ Location: Wilkes-Barre, Pa. Comments: A previous owner reported organ as a Style 148 (with single tracker frame), and that it was in a flood during the early 1970s, located in a basement that was underwater and the organ floated for a day or so. There was an article about this organ in the MBS bulletin in the 70s. Prior owner was reportedly "Penn Skating Rink Co., Wilkes Barre, PA."	Golden Oak	73	1/9/1925	Serial 38.02

Location: Bellingham, Wash. Editor Comments: The Wurlitzer Factory Shipping Dock Ledgers show this organ as remodeled (6/12/39) to a Style 165.					
2128	155 Band Organ	-----	-----		Serial N/A
Editor Comments: This item was appended to the band organ ledger information on 4/19/2011, using information supplied by Dan Robinson and Art Reblitz. Ledger page is N/A. Comments: Style 155 "Monster" (built by de Kleist). Organ had a wooden 5-tune spoolbox and newspapers dated 6/27/1907 in the pressure pump, which suggests a completion date of 1907.

2421	155 Band Organ	-----	-----	9/22/1909	Factory 1-58
2453	155 Band Organ Comments: #2453 was originally used at Elitch Gardens amusement park in Denver, and sold with PTC menagerie carousel #6 to the Kit Carson County commissioners for the county fairground in Burlington, Colorado, in 1928. The original 5-tune spoolbox with steel sides had been replaced with a 10-tune cast iron 165 spoolbox by the 1920s. Reblitz Restorations first restored the organ with the 165 spoolbox in 1976, and then restored it to its original 155 configuration in 1999. This included replacing missing brass and wooden pipes, reproducing the 5-tune 155 roll mechanism with wooden sides copied from earlier 155 organ #2128, and copying original 155 music rolls.	-----	-----	12/2/1909	Factory 1-59

3349	165 Band Organ - Duplex	White	Our 376	4/11/1921	Serial 22.14
Customer: A. H. Bornkessel; Sea Breeze, N.Y. Editor Comments: The Wurlitzer Factory Shipping Dock Ledgers show the customer as A. H. Bornkessel, 4/12/21. Comments: Andrew Bornkessel owned a small amusement park on the shore of Lake Ontario, just across the road and New York Central Railroad tracks from Seabreeze Park, which was then owned by the New York State Railway Co. The NYCRR successfully sued Bornkessel over ownership of the lake shore park land. So Bornkessel moved south across the road and the railroad tracks to build Karnival Kourt in 1917. He eventually renamed it Boardwalk Park and it operated until about 1960. It is believed that 165 organ #3349 perished in a 1932 fire at Boardwalk Park.

Customer: Spillman Engineering Company					
Notations: 165 Band Organ, 4/12/26, Order No. 2106, Washington, D.C.					
Comments: The Wurlitzer Factory Shipping Dock Ledgers has 5/29/25 crossed out, with notation to see March 1926, but has nothing under March 1926; it is under Apr. 12, 1926. The story is the first shipment to Washington, D.C., sat unclaimed and it was reshipped the next year. The Factory Ledgers have two more entries, in 1934 and 1941, showing the organ's conversion to APP or Caliola rolls. The organ is still in its original location at Glen Echo Park, converted back in the 1970s by Durward Center, Baltimore, to play 165 rolls.

4182	180 Band Organ	-----	1131	6/19/1929	Serial 55.22
Customer: St. Mary's Church; Amsterdam, N.Y. Notations: 11/16/36, John L. Bell, Fort Wayne, Ind. Comments: #4182 is the incomplete 180 located in the Virginia City, Mont., museum. It is equipped with a keyboard mounted on the side near the bottom. The John Bell mentioned in the notation owned a rollerskating rink in Fort Wayne, and it is still in operation. The original Amsterdam, N.Y., destination was St. Mary's Church. None of the church's records or members shed any light on what a Catholic Church (which already had a fine church organ) was doing with a Style 180 keyboard-operated band organ.
