Editor Comments: This entry is a combination of two separate items, both identical except that the primary item has only a Wurlitzer serial number, while the latter brief mention has only a Philipps serial number and is not dated, and it is shown separately on an otherwise blank page at the end of the ledger. It is presumed that the later style 17 mention was added to record the Philipps S/N after the primary entry had already been entered, but inserted at the ledger's end without taking the time to search through the ledger to find and annotate the primary entry.
